2-Cent Coins

Get ready to load your pocket with the old-fashioned 2-cent copper coins like granddad used to carry. They will be here before long when the Treasury Department authorizes their production at the request of the Woman's Roosevelt Memorial Association. The idea is set forth as a national tribute to the memory of the former President, and the coin will bear the likeness of the beloved leader and patriot. It is urged not only as a memorial tribute but as a coin of convenience to provide for payment of post-war taxes.
